

# KETTERING GREEN DAY

SAT, JUNE 4<sup>th</sup>

10 am - 6 pm

WESTFIELD GDNS, KETTERING

Stalls - music - workshops

Peace - environment - resources -

3rd world - health - animal welfare

## WHAT IS A GREEN?

You are showing clear signs of turning green if you agree with most of these ... that:-

- the Earth is our sacred trust and needs our love and care
- plants and animals who share the Earth with us should be protected
- food and resources should be shared throughout the World's people
- decisions at all levels are for sharing between men and women
- lasting peace can only come through co-operation and justice
- a healthy society should emphasize all human needs
- work and play are both a vital part of our humanity

.....

Kettering Green Day aims at bringing together local groups and people who are working towards a society that does not threaten the world, a sustainable, more balanced society, and one that will give more back to the Earth than we take from it.

Many of the groups involved are single issue pressure groups or concerns. We wish to show the connections between them - how our consumer-orientated society has a responsibility for third world poverty - how nuclear weapons and the civil nuclear power industry are linked - how our respect and love for the Earth can be reflected in our dealings with all living creatures and help us work towards attaining a natural balance of giving and taking.

We are one world and one people.

This is a celebration too - celebrating life, optimism and people joining together. We hope you will come too and bring your goodwill, music, feet for dancing and ideas for sharing.

There will be workshops on themes such as non-violence, the nuclear cycle and the Green movement.

Westfield Gardens is behind the Royal Hotel and below the Westfield Museum.
