

## GEOFFREY GARBETT YOUR ECOLOGY PARTY CANDIDATE

Harvest Cottage,  
Stoke St. Gregory,  
Taunton. TA3 6EG

Dear Voter,

In this election Taunton is one of 15 constituencies in the South West fielding an Ecology Party candidate. This gives you the rare opportunity to vote for a political party with a new, positive, and hopeful approach. Since its formation in 1973 the Ecology Party has been steadily gaining strength throughout the country showing that our sort of common-sense is gaining ground. It is surely clear that the major parties have run out of ideas and are producing an increasingly inadequate response to the long term problems that confront us.

Do not let the fear of a wasted vote stop you from supporting us. We are part of an international movement that is gaining strength and eco-votes throughout Europe. The eyes of the established parties will be on us.

By your vote you can show them that you wish to protect the world our children will inherit, and safeguard our democracy in a time of extraordinary upheaval. Your other choice is to go on supporting the same old policies that will quite literally, cost us the earth. We offer the only real alternative - working towards an ecological, democratic and sustainable future. That is why we need your vote.

Yours sincerely,

REMEMBER: We do not inherit  
the world from our fathers, we  
borrow it from our children.

# AT LAST A REAL ALTERNATIVE

### YOUR CANDIDATE

Geoffrey Garbett teaches biology in a local comprehensive school. Before obtaining an honours degree in Education in 1976 he spent four years travelling widely throughout the world. His experience in countries as diverse as America and the Fiji Islands convinced him of the dangers of current world economics, and he has campaigned for ecological policies ever since.

He has lived in Stoke St. Gregory for six years, is treasurer of the Taunton Classical Guitar Society, and sings in a local choir. He spends many of his weekends working in local nature reserves, and is a keen cyclist.
