

## THE ECOLOGY PARTY: THE GREEN PARTY OF THE UK

- ▶ puts PEOPLE BEFORE PROFIT to ensure social equality and basic material needs for all
- ▶ gives people PARTICIPATION in decision-making, through full-scale de-centralisation, giving life to local communities
- ▶ aims to PROTECT THE EARTH and all its inhabitants, sharing its resources instead of competing for them
- ▶ THINKS AHEAD so that future generations can inherit a world fit to live in.

"WE DO NOT INHERIT THE EARTH FROM OUR FATHERS, WE BORROW IT FROM OUR CHILDREN"

JOIN US IN OUR CAMPAIGN FOR A NUCLEAR-FREE FUTURE

for details of this and of all our policies, contact:

or the ECOLOGY PARTY, 36-38 Clapham Road,  
London SW9 0JQ

## WILL THEY THANK US FOR THIS?

**Our Planet**  
has already been irreversibly contaminated  
with radioactive waste.  
Unless we stop it, the nuclear industry threatens us all  
either through lethal contamination or total war.  
There is no need to jeopardise our children's future;  
we can use safe renewable energy sources  
and have a viable non-nuclear defence policy.

# THE NUCLEAR STATE

- ▶ NUCLEAR WEAPONS produce radiation
- ▶ NUCLEAR POWER STATIONS produce radiation
- ▶ NUCLEAR WASTE produces radiation
- ▶ NUCLEAR REPROCESSING produces radiation
- ▶ URANIUM MINING produces radiation

**RADIATION  
CAUSES CANCER**

AS IF THAT IS NOT ENOUGH...

**NUCLEAR WEAPONS ARE:** enormously expensive; create very few jobs; threaten people, animals and the world with extinction

**NUCLEAR POWER STATIONS ARE:** expensive to build, expensive to run; expensive to close down

**NUCLEAR WASTE IS:** lethal for thousands of years; piling up in huge quantities; no one knows what to do with it

**THE NUCLEAR STATE IS:** secretive, repressive and totally undemocratic

Isn't it time we said NO to this dangerous industry?

It affects us all as more weapons, power stations and waste dumps are proposed for different parts of the country. While we feel the cuts in housing, education and care for the sick and the elderly, more money is spent on this destructive technology.

# LOOKING AHEAD

## REAL DEFENCE

no nuclear weapons; no US bases; leave NATO; deploy only defensive weapons; co-operation with European countries in a non-nuclear, non-aligned association; move towards a policy of non-violent social defence; immediate end to arms trading

## CONSERVATION OF ENERGY

sensible use of energy and resources without nuclear power; less waste; subsidised insulation is cheap and long-lasting; combined heat and power stations

## RENEWABLE SOURCES

solar, wind and wave power are all safe, can be matched to local needs, create jobs, do not pollute and are unaffected by world crisis

## REAL DEMOCRACY

open government; local democracy; Freedom of Information Act

## PEACE & FREEDOM

encouragement of tolerance and trust enabling people to work together to create a more peaceful and healthy environment for our children

Many people are looking for new paths, as they question the ability of "conventional" politics to do anything positive to improve the quality of life. The Ecology Party offers a new path –

**POLITICS FOR LIFE**
